## IT STUDENT

### POWERFUL INFO

Hi! I am a computer science student studying in Cherkasy Art and Technical College. I am interested in the website development process, so I am actively learning Front End. I am looking for an opportunity to use my knowledge in real-world projects.

My goal is to get a job at an IT company where I can learn from experienced professionals and make my contribution to the development of web products.

Just kidding, I just want to count the ducks in the office.
